But only if you are eligible – **AND** you are one of the first 10,000 to be approved.

The Australian Government has announced it will introduce a **First Home Loan Deposit Scheme** to support eligible first home buyers purchase a home faster.

Commencing on 1 January 2020, and available to only 10,000 buyers, the scheme allows eligible first-time owner-occupiers to buy their first home with just a 5% deposit and no LMI payable.

What is LMI and how does it work?

Contrary to what many people think, LMI is designed to protect the lender, not the borrower, even though the borrower pays for it.

The LMI is in place to protect the lender if the borrower can't afford to meet their home loan repayments.

On a normal property purchase when you are required to pay LMI, it typically costs tens of thousands of dollars.

And the GOOD NEWS For YOU...

Under this First Home Loan Deposit Scheme, there is **NO** LMI payable.

It has never been so easy to make your first home dreams come true.

Are you eligible¹?

- You are an Australian citizen (not available for permanent residents)
- You are a genuine First Home Buyer (if you own an investment property you won't be eligible)
- You have a 5% deposit. You will still need to borrow the remaining 95% but you will avoid paying LMI.

- You earn less than \$125,000 a year as a single or \$200,000 combined for couples

IF you meet these criteria you need to contact us FAST!

4 URGENT Tips To Beat The First Home Buyer Rush

1. Be prepared

Having all your records up to date and accessible is essential.

Ensure you have your:

- identification
- proof of employment
- savings history
- evidence of current assets and
- statements of all debt.

This will make the application process a lot faster.

2. Minimise your spending NOW!

While it may be too late to put the brakes on your spending, those who can demonstrate good budgeting and financial discipline will have a far greater chance of nabbing one of the 10,000 schemes on offer.

3. Clean up your credit – NOW!

Even if you have a credit card with zero balance, lenders will see there is always a chance for you to dive into debt up to your credit limit.

So close down or reduce your credit limits where you can. That includes buy now, pay later options!

The more 'available' credit you have access to, the less you will be able to borrow.

4. Stay in your current job

Those who can show a strong and consistent employment history will stand a better chance of approval.

If you have started a new job recently, you will need to wait until your probationary period is complete and may miss out on the First Home Loan Deposit Scheme.
